To Introduce a By-law for Grant of \$500

Municipality of Montgomery Legislature Learn Bank Will Allow Reduction of \$200 on Exhibition Debt—Gopher Extermination By-law.

The regular meeting of the Council of the Municipality of Montgomery was held in the Council Office on Saturday, June 4th, 1927.

All the Councillors were present. The minutes of the last meeting were read and adopted on the motion of Councillor Johnson.

Correspondence was read from the Richardson Road Machinery Co., re wheel scrapers. The letter was ordered filed.

Cauley and Carthew wrote submitting prices for survey work. The letter was ordered to be filed.

Moved by Councillor Maynard that By-law No. 277 governing the extermination of gophers be given first and second readings. Carried. The by-law was then read a first and second time.

A deputation from the Wetaskiwin Agricultural Association then interviewed the Council re the grant. The previous decision of the Council was adhered to.

Moved by Councillor Maynard that the bills and pay sheets be passed for payment. Carried.

Mr. C. D. Smith came and handed the Council a letter from the Canadian Bank of Commerce informing them that the bank had reconsidered the request of the Council and that the Bank would now allow a reduction of \$200 from the debt of the Exhibition Association.

A by-law will be introduced at the next regular meeting of the Council to authorize the payment to the Wetaskiwin Agricultural Association of a grant of \$500.

Moved by Councillor Shantz that we adjourn. Carried.

GOVERNMENT TO AID IN MAIN HIGHWAYS IN ALBERTA

Edmonton, June 3.—The question of connecting the gaps on the main highways through towns and villages has for some time been receiving the attention of the government. The Dominion Government has not extended to any work done within incorporated areas, and the first development by the province did not include these sections. However, the government realized the importance of eliminating these unimproved portions on the main highways, and recognized that it is perhaps unfair to ask the towns and villages to assume the entire responsibility for this work. They have, therefore, decided to give the provincial assistance for this much-needed development, and if the response of the urban bodies indicates a general acceptance of the proposal, the government will be prepared to guarantee 50 per cent of the cost of construction.

Such a scheme would give great relief to the travelling public, and at the same time enable the towns and villages to maintain a real road with in their border. This naturally would only apply to those places where the government has undertaken permanent road improvement.

The government is very desirous of securing uniformity in the development, and will provide engineering service to carry out the work.

BURGARS USE FLOUR TO DEADEN SAFE EXPLOSION

When burgling a store at Lyleton, B. C., recently, the raiders piled twelve 49 pound sacks of Robin Hood flour around the safe to deaden the explosion. The burglars were successful in escaping without awakening the neighborhood, but results to the four were disastrous.

It is reported that the storekeeper jokingly said afterwards, "There is more than one use for Robin Hood flour."

CARD PARTY HELD IN HONOR OF BRIDE-TO-BE

Miss Nora Compton, was the guest of honor on Thursday evening, at a card party given by Miss Elsie Redden at the home of Mrs. E. T. Williamson. The guests were the girl friends of Miss Compton. Prizes were won by Miss Nora Compton and Miss Hamilton.

Town Topics

J. P. Johnson was confined to the house several days of the past week through illness.

Mrs. Chas. Scott and Master George of Vancouver, are visiting at the home of the former's sister, Mrs. J. L. Knowlan.

Miss Knox, son of Mr. and Mrs. Knox, arrived a few days ago on a visit to her parents, Mr. and Mrs. Alex. Knox, and with other friends.

Mr. and Mrs. Kenneth Montgomery of Edmonton, spent the weekend visiting the former's parents, Mr. and Mrs. H. J. Montgomery.

A general meeting of the Order of the Royal Purple will be held on Monday evening, June 13th, at eight o'clock in the Elks' Hall.

Mr. Harding of the Bank of Montreal, St. Louis, and Mr. Stow, (teller of the Wetaskiwin branch of the same bank, spent the weekend in Edmonton.

Mr. and Mrs. D. MacEachern left on Friday last for Ottawa, and other places in the East, where they will spend some time with relatives and old friends.

The many friends of Mrs. E. Barnett are pleased to know that she is convalescing nicely after a serious operation. It will be several days before she is able to leave the hospital.

Mrs. H. R. C. Walker was taken down with an attack of illness a few days ago, and it is not likely she will be able to assume her duties on the teaching staff of the Alexandra school again this term.

A. E. Maggs and son, and Richard Chandler and Ralph Walker, left last week by auto for the Coast, where they will reside. Mr. Chandler will go on to Oregon, where he will visit his brother Ed.

Mr. and Mrs. E. R. Rasmussen left on Tuesday on a motor trip to Minneapolis and other places across the line. This is the first holiday trip these esteemed citizens have taken since they settled in the Wetaskiwin district.

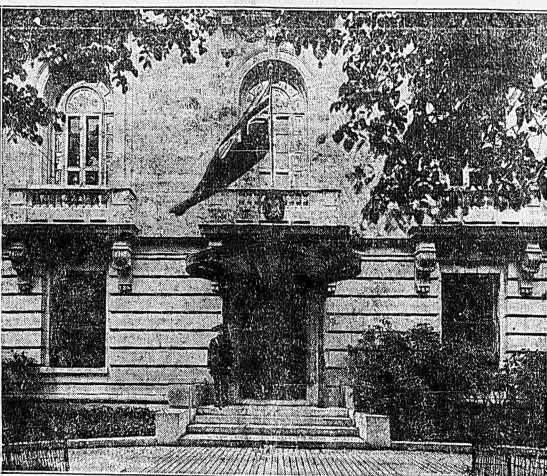

It is quite likely the cottages and beach at Ma-Jo-o Beach will be electric lighted this summer. A petition was being circulated among the cottage owners this week, asking Jack MacCrae to install a Delco Light system and sell the light to the consumers. The petition was well signed.

Mrs. E. O. Shugren, a returned missionary from India, is home on furlough, and who has been visiting her brothers, Emer and Eben Larsen, of Water Glen, left on Monday for Minneapolis and other places in the U.S., where she will visit friends. While in this community she addressed meetings at Water Glen Baptist Church, Malmo Mission Church and the Wetaskiwin Swedish Baptist Church.

J. E. REILLY GIVES IMPRESSIONS AT KIWANIS CLUB

The Kiwanites who attended the luncheon Tuesday evening, were well read by the excellent entertainment provided by Mr. J. E. Reilly, of Edmonton, who gave a brief address and then proceeded to give impressions of several prominent statesmen. At the outset, Mr. Reilly referred to the late C. O. Swanson, whom he met in his native village in Quebec, and who was instrumental in getting him to come West. He then gave very amusing and clever impressions of John L. Sullivan, the Right Hon. Sir Wilfrid Laurier, Dr. Michael Clarke, Hon. R. B. Bennett and the Hon. Duncanson Marshall.

Advertisers know the value of the newspapers in their community. Subscribe for the newspaper that the merchants use for their advertising.

CANADA IN WASHINGTON
Home of the Minister of the Dominion to the United States, Hon. Vincent Massey. The opening of the building is one of the marks of Canada's progress in the Jubilee year of Confederation.

ESTEEMED COUPLE CELEBRATE THEIR GOLDEN WEDDING

A very interesting and popular event took place near New Norway on Sunday last, when the family of Mr. and Mrs. William Pittendreich, assembled to join with them in the celebration of their golden wedding. The esteemed couple were married at Laurenceville, Kincardineshire, Scotland, in 1877. The bride being Miss Susan Milne. To this union ten children were born, all living, and six of them were at the celebration on Sunday. Two of the others are residing in Scotland, one in Vancouver and the other in Athabasca. There are eight teen grandchildren, and seven of them were present.

Lunch was served and the bride and groom and all hoped they would live to celebrate their diamond jubilee. They are both enjoying good health. Among the presents was an orthophonic and records, the gift of the children, and during the day many choice Scottish selections were enjoyed. Each of the children was surprised by being presented with a wedding picture taken fifty years ago.

Mr. and Mrs. Pittendreich came from Scotland in October, 1909, and bought a farm in the New Norway district, which they improved and now have one of the finest and most beautiful homes in the community. They are exceptional gardeners and it is real enjoyment to visit them and see the beautiful flowers, vegetables, as well as the apple and plum trees, etc.

Their host of friends join in extending the heartiest congratulations to the popular and esteemed couple.

MENNONITES FOR PEACE RIVER

Edmonton, June 3.—About twenty-five thousand Mennonites from Manitoba, and newcomers from Russia, will probably be located in a colony north of Peace River if plans now under way are carried into effect. It is expected that some 5,000 families would take part in this large movement to northern Alberta where twenty townships or more, or 800,000 acres would be homesteaded. Blazing the way for the newcomers and hopeful of seeing the plan realized, advance representatives have arrived via the C.N.R. line. They left this afternoon for Peace River and expect to take from two to three weeks in a careful survey of the blocks required for settlement purposes.

Weddings

MELLING-COMPTON

One of the prettiest and most popular events of the season took place at the home of Mr. and Mrs. C. D. Compton on Wednesday forenoon of this week, when their daughter, Nora Edson, became the bride of Peter Melling, M.B., M.D., of Edmonton, Alberta. The contracting parties were unattended at the ceremony was performed by Rev. D. D. McQueen.

To the strains of the "Bridal Chorus" from Lohengrin, played by Miss Redden, the bride entered the living room on the arm of her father, who gave her in marriage. She was becomingly attired in white georgette with silver trimming and wore a band of rhinestones and silver in her hair. Her only ornament was a string of pearls, and she carried a bouquet of Opheelia roses and ferns.

The bride's mother wore a pretty rose georgette dress with cut work over brown crepe-de-chine. The sister of the bride was becomingly attired in orange shot tulle.

A big bay window formed a fitting setting for the event, in which hung a big white-tulle bell and ribbon streamers, which were caught by the trail with lilacs and bunched with fern and pooled plants in bloom. The rooms were fittingly decorated in pink and white roses and carnations.

During the signing of the register, Mrs. H. J. Montgomery sang "All Joy to Thee." After the ceremony, a tempting buffet lunch was served.

The table was centered with a handsome wedding cake. The beautiful and numerous gifts testified to the high esteem in which the bride is held.

The happy couple left on the 2:31 train for Bent and Lake Louise, where a short honeymoon will be spent. For a travelling dress the bride wore a black satin coat appliqued and embroidered in color, with baby fox fur collar and hat to match.

Their host of friends join in extending the heartiest congratulations for a happy and prosperous future.

SECURES 23 COYOTES

Mr. George Pink, of Chesterford, reports that he had a successful coyote hunt during the winter—securing 23 animals in all with his dog. His young fox hounds did the heavy work, securing no less than 10 coyotes out of the eleven they went after. Mr. Pink's return, from this winter, including a quantity of rabbit skins, was \$300.00.—Ponoka Herald.

VERY SUCCESSFUL RECITAL BY L. D. WRIGHT'S PUPILS

A very enjoyable and successful recital was held in the First United Church on Friday afternoon last by the pupils of Mr. L. D. Wright. A large and appreciative audience was present. The following program was rendered:

Recitation "Young Students," Margaret Finch; solo "Two Little Brownies," Thelma Walker; Duet "Festival March," Arthur MacArthur and L. D. Wright; solo "The New Battalion," Estor Somers; solo "Waltz, by Kulak," Jack Walker; solo "The Samman," Norma Lahti; solo "The Silver Dime," Kelle McMurdo; solo "Pastor Waltz," Jean Peterkin; solo "Wood-Lake Waltz," Gerald George; solo "Sonatina Clementi," Alex Lassels; recitation "Busy Eyes," Thelma Walker; solo "Narcissus," Agnes Thompson; solo "Jack Frost," Melville Walker; solo "Melody in C," Barbara Thompson; solo "Sonatina Debut," Elmer Finch; solo "Star Performer," Arnold Ellis; duet "Merry Trumpeter," Florence French and L. D. Wright; solo "Will O' the Wisp," Kathleen Orr.

WILL HALT FLOW FROM CENTRAL EUROPE

Calgary, June 2.—H. B. Ashhead, M.P., East Calgary, yesterday received a telegram from the acting minister of immigration advising him that action was being taken to prevent sailing of additional central Europeans likely to add to present congestion. With others, Mr. Ashhead had complained that too many immigrants from central Europe were arriving in this district to accommodate with work at this time.

NEW DESIGN FORD CAR IS ANNOUNCED

Ford, Ont., May 26.—An official announcement was made yesterday by W. R. Campbell, vice president and treasurer of the Ford Motor Car Company of Canada, that his company was about to launch into the production of a new Ford of "extensively revised design." It has been designed by Henry Ford and will aim as old the "T" Ford, to meet the demand for a light car. Parts for the "T" model will be produced for some years, it is announced.

You would not be ashamed of your stationery if it had been printed at The Times office.

Weekly C. P. Crop Report Is Optimistic

Past Experience Shows That With Favorable Conditions of Moisture Such as This Year, Wheat Sown Late Does Well.

Winnipeg, June 6.—Rains interrupted farm work in many sections of the west during the past week, reports the agricultural department of the Canadian Pacific Railway. In spite of this a good deal of seeding was accomplished and the drills are today in full swing everywhere. Most of the land intended for wheat has been seeded.

The outcome of late seeding depends on growing conditions and the nature of the early fall. Past experience shows that if moisture conditions are right, and this year they are favorable, wheat sown late generally does well. Early wheat is up four or five inches and growing rapidly, the stand being even and of good color. As indicated in the last report, there will be decreases in the wheat acreage in Manitoba and Saskatchewan, but from present indications it seems certain that Alberta will have as large a wheat area as last year, as there is a great deal of new land which has been brought under cultivation. Moisture situation is so favorable that seed is germinating in three or four days after going into the ground, and the crop generally is in a position to stand a long spell without further precipitation, and a period of dry, warm weather will be welcome.

Rain delayed seeding over larger part of Saskatchewan last week, but work generally is now again under way. Probably 85 to 90 per cent of the wheat is in and 60 to 75 per cent of coarse grains. Warm weather will prove essential to a promising start and with this assured, there is no doubt of rapid growth. Early wheat and rye are doing splendidly and are unusually well rooted.

Conditions in Alberta are exceptionally good. 80 per cent of wheat is in on the Coats, Carleton, Taber and Stirling subdivisions. Throughout the rest of the province wheat seeding is about completed. About 65 to 70 per cent of coarse grains are seeded. Wheat sown early is a splendid stand, and so far has suffered no damage. Fall wheat and rye crops are more promising than they have been for years. Grass is coming along splendidly.

It is still too cool for satisfactory growing conditions in British Columbia. The early sweet cherries are over the bloom stage, the blossom being heavy. Apples are just passing through the pink and everybody is busy spraying, principally for scale.

Agricultural Wealth of Thirty Millions in West is Prediction

Calgary, June 3.—C. W. Peterson, editor of the Farm and Ranch Review, in his address before the Canadian Manufacturers' association delegates and the board of trade at noon today sought to establish more firmly in the minds of his hearers the position of the agrarian in the scheme of Canadian life and to present a picture of the problems now confronting this section of industry. He told of the introduction of farm implements which may greatly reduce the cost of grain production, and expressed the opinion that, since a type of combined binder and threshing machine had been in use in the United States for some years, it was regrettable that the Canadian manufacturers had neglected, until recent years, to assist in making a similar machine for use on Canadian farms. In conclusion he urged a closer understanding between the farmer and the manufacturer, particularly on the question of tariff.

Pointing out that the population west of the Great Lakes in 25 years has increased from 600,000 to 2,500,000 and the investment in agriculture from \$25,000,000 to \$400,000,000, and that similar vast increases have been registered in crop acreage, and in the production of dairy products, the speaker declared that no other country on the face of the earth can show progress to equal these figures, which become all the more staggering when it is realized that they are based upon the utilization of less than 21 per cent of the known arable areas of western Canada which contain an area fit for agriculture exceeding one-half of the total arable area in the United States.

He means that, aside from improvements in yield, western Canada's arable area will some day produce annually agricultural wealth in excess of twenty billions of dollars with per-

Appreciation of Travelling Clinics
Letters continue to come in to the Department, announcing that, George Hoadley, Minister of Health, expressing appreciation of the splendid work being done by the Travelling Clinic under the charge of Dr. R. T. Washburn, which is bringing medical service to many outlying communities. Mrs. R. Clarke Fraser reports that at Nain, near Camanet, operations were performed on over thirty children and many in addition were given dental attention and prescriptions for glasses. Results indicate, states Mrs. Fraser, that this service is one of the greatest the government has ever undertaken.

At the four points visited to date since May 15, a total of 80 operations have been performed, 284 consultations have been held and 126 dental treatments have been given. Requests are being received from many other districts for the services which the clinic is rendering.

Ministers to Visit Calgary Office
The direct service of the Government to the people of the southern part of the province through the newly opened provincial government office in Calgary, will be made available by the presence in this office of one of the members of the cabinet each Thursday throughout the season.

Canadian Manufacturers Meet in Cal-
gary

Some 500 delegates representing in-
dustrial interests in all parts of the
Dominion met in Calgary on June 2,
3 and 4, in the annual convention of
the Canadian Manufacturers' Association.
The selection of Alberta as the
meeting place of this important gathering
indicates an appreciation of the
increasing industrial development of
the province.

**Dominion Butter Grading Service
Installed**

Butter grading in the province
which in the past has been carried on
by the provincial government, will
from June 1, 1927, be handled by the
dairy branch of the Dominion De-
partment of Agriculture, according to
an arrangement recently reached.
Dominion graders have been station-
ed in Calgary and Edmonton, and
creamery operators will find practi-
cally no change in the regulations
which have prevailed in the past.

The educational as well as the com-
mercial features of the service will be
continued, and it is felt that the new
move will avoid any overlapping in
this phase of the dairy industry.

More Buffalo Being Moved North
The first consignment of a further
shipment of 2,500 buffalo to be moved
this season from the park at Wain-
wright to the wood buffalo preserve
at Fort Smith is expected to leave
Edmonton on June 7.

The 1927 shipments will bring the
total number of buffalo moved to the
northern preserve up to over 5,500,
1,634 were transferred in 1925 and
2,011 in 1926. Plans are under way
for an aerial survey to be undertaken
soon by the Dominion Government
of the area in the far north over
which the wood and plains buffalo
are ranging.

Alberta Coal Popular in East
Alberta's Trade Commissioner,
Howard Stutchbury, and W. W. Mc-
Bain, chairman of the coal publicity
committee, are meeting with success
in their efforts to establish
Alberta coal on the Ontario market.

The Alberta representatives have re-
ceived assurances of strong support
from leading public men, commercial
organizations, and a national com-
mittee of prominent men has been named
with headquarters in Toronto.

Tourist Routes Officially Opened
The Banff-Windermere highway and
the Lake Louise-Field road were of-
ficially opened to the public for the
1927 season on June 1st. It is expected
that the number of tourists viewing
Alberta's scenic spots along these
routes this season will be larger than
ever before.

Scientifically Designed Balloon Tire Tread

Low pressure conditions distribute most of the weight and wear toward the outer edges of the Balloon Tread, so that is where Firestone engineers place most of the rubber. At the direct center is a deep groove, between two narrow flexing ridges and flanked by additional grooves, which nearly close up when the rubber spreads out as the tire is placed under load. Next come the wide outer ridges with numerous sharp-edge projections for non-skid qualities. These projections are small to permit the tread to yield to irregularities and cling to the road. The carcass of the Balloon Tire must have the qualifications to withstand the extreme flexing which this tread permits. Firestone provides extra strength and endurance by dipping the cords of the carcass in a rubber solution, which completely saturates and insulates every fiber of every cord, insuring the highest degree of economy, safety and comfort.

prairie wolves taken between April
30 and September 1 will be paid for at
\$2 a pelt, and each wolf pup taken
before July 1 will command \$2. While
prairie wolf and wolf pup pelts upon
payment of the bounty become the
property of the provincial govern-
ment, timber wolf pelts upon which
bounty is paid are to be sold through
the provincial government for mar-
keting service and the proceeds, less
the selling commission, will be paid
to the person receiving the bounty.

Alberta Fisheries Active in 1926
The commercial fish industry in Al-
berta in 1926 experienced the great-
est year in its history, according to
Fisheries Inspector Todd who has
made his report on the year's activities
to the Dominion Government. The
total commercial catch for last
year, both winter and summer months,
amounted to 6,765,000 pounds, of
which 3,932,000 pounds was summer
catch and 2,833,000 pounds winter
catch.

LAST CONTRACT FOR C. & E. HIGHWAY LET

A contract for the gravelling of 47
miles of the Edmonton-Calgary main
highway has been awarded to the
Penn Delivery Company of Edmonton
by the Public Works Department. The
mileage covered by the contract is the
section of road between Lacombe and
Isted and two short pieces be-
tween Isted and Inisfail.
The work is to be begun at once and
will consist of a truck-haul from local
gravel pits. It represents the last gap
on the road between the two cities,
all other unfinished portions having
been contracted for a few weeks ago.
Gravel spreading on the train-haul

THURSDAY, JUNE 9, 1927

Confederation and After; Sixty Years of Progress; The British North America Act

The original Dominion of Canada, formed July 1, 1867, by the British North America Act, was composed of four Provinces, Ontario, Quebec, Nova Scotia and New Brunswick. Manitoba became the fifth Province in 1870; in 1871 British Columbia became the sixth; in 1873, Prince Edward Island became the seventh; in 1905 Alberta and Saskatchewan became the eighth and ninth Provinces; Yukon became a Territory in 1933 and all the rest of Canada is "The Northwest Territories." The British North America Act may be termed the "Written Constitution" of Canada, although in Canada there is much that is unwritten in that Constitution which has been defined as "the totality of the principles more or less vaguely and generally stated upon which we think the people should be governed."

The difference between the Constitution of Canada and that of the United States has been described (by the Hon. W. R. Riddell) as, speaking generally, amounting to this: "In Canada anything unconstitutional is wrong, however legal it may be; in the United States anything unconstitutional is illegal, however right and even advisable it may be."

There is no provision in the B.N.A. Act for amendments thereto, the reason being that when the Provinces of Lower and Upper Canada were united, in 1841, into the Province of Canada, the old Lower Province was largely populated by French-Canadians, all most of all of whom were Roman Catholics and much attached to their old laws and customs; the remainder of the people of the New Dominion were largely English-speaking and Protestant, in general attached to English law and customs. While the French-Canadians were willing to enter into a contract with their English-speaking brethren, they were not willing to enter into a contract which would be varied by the more numerous English without their consent.

Still there is no difficulty in having an amendment made when desired, it is brought about in this fashion: an Address to the Sovereign is passed by both Houses of Parliament at Ottawa asking for the amendment specified. According to the unwritten Constitution, the vote on the Address must be unanimous (or practically unanimous) or it will not be forwarded to London. When the Address is received by the Colonial Secretary in London, the

desired amendment to the B.N.A. Act is passed by the Imperial Parliament as of course without debate. The legal conception of the powers of the Parliament of the Dominion and the Legislatures of the Provinces is that they are a grant by the Imperial Parliament through the B.N.A. and amending Acts. But it is a mistake to infer from this that such powers are limited and delegated. Lord Selborne laid this down definitely saying, "the . . . Legislature has powers expressly limited by the Act of the Imperial Parliament which created it and it can, of course do nothing beyond the limits which circumscribe those powers. But when acting within those limits it is not in any sense an agent or delegate of the Imperial Parliament, but has and is intended to have plenary powers of legislation as large and of the same nature as those of the Imperial Parliament itself."

Trading Posts to Capital

One of the things that links three of our western capitals with the days before Confederation is the interesting fact that each of them was at one time an important center of the fur trade. Winnipeg covers the site of Fort Garry, Edmonton of Fort Edmonton and Victoria of Fort Victoria. Winnipeg's association with the fur trade in fact goes much further back. The old North West Company and the Hudson's Bay Company both had trading posts at the mouth of the Assiniboine, and as early as 1733 La Verendrye, the famous Canadian

explorer, had Fort Rouge built within what is today the capital of Manitoba. Fort Edmonton was an important distributing point for the Hudson's Bay Company for its operations on the upper waters of the Saskatchewan, and north to the Athabasca and the Mackenzie River country. Similarly Fort Victoria was for years the headquarters of the Company's trade on the Pacific Coast, after Fort Vancouver had been abandoned because of the settlement of the 49th parallel as the international boundary.

Things have changed considerably since the days of Fort Garry, Fort Edmonton and Fort Victoria. Those trading posts were occupied by a handful of white traders, with their half-breed business and hunters; Indians roamed about the country that is now the four western provinces; countless herds of buffalo blackened the plains. To-day busy modern cities cover the sites of the old trading posts; three great provincial buildings rise majestically from where Indian tepees or campfires once stood; thousands of square miles of wheat-fields have taken the place of the old grazing grounds of the buffalo; and two transcontinental railway systems follow the river systems that were once the thoroughfare of the fur trader.

It seems almost incredible, as one stands on the busy streets of these flourishing Canadian cities of to-day, that within the memory of men now living, such as the venerable Western Canadian poet, Charles Mair, the only commerce that existed in these places was the trade in peltries, the only means of communication the canoe or horse or oxcart, and the only government that of the famous Company of Adventurers of England trading into Hudson's Bay.

In the year of Confederation, Winnipeg was exactly five years of

TRY MAGNESIA FOR STOMACH TROUBLE

To Neutralize Acidity and Fermentation. Prevents Indigestion, Sour Gassy Stomach

People who suffer from indigestion usually have tried peppin, charcoal, drugs and various digestive aids and got little more than slight temporary relief—sometimes not even that. But before giving up to chronic dyspepsia, just try the effect of a little Bisulphated Magnesia—not the ordinary commercial carbonate, citrate or milk, but pure Bisulphated Magnesia which you can obtain from practically any druggist in either powder or tablet form.

Take a teaspoonful of the powder or four compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy, lumpy feeling that seems to follow most everything you eat. You can enjoy your meals without a fear of indigestion. (39A)

THE FATHERS OF CONFEDERATION

MEMBERS OF THE QUEBEC CONFERENCE, OCTOBER, 1864

F. Palmer R. B. Dickey
Hewitt Bernard (Secy.) Ambrose Shea John A. Macdonald Peter Mitchell W. H. Pope J. M. Johnson
W. A. Henry George Cole R. B. Chandler Adams G. Archibald George E. Cartier Thomas H. Howard J. H. Gray A. A. McDonald

W. H. Stevens John Hamilton Gray Edward Whelan Samuel L. Tilley George Brown Charles Tupper

age; Manitoba had not yet been created out of the old Red River Settlement; to reach Eastern Canada it was necessary either to travel by canoe down the Red River to Lake Winnipeg, up the Winnipeg to the Lake of the Woods, from there by a series of small waterways to Lake Superior, and by the Great Lakes and the Ottawa river to Montreal, or to take an equally roundabout route through American territory. The Canadian Pacific Railway was still a thing of the future. Edmonton

was still a trading post in 1867, and much more remote from Montreal than Hudson City is today. Victoria, like Winnipeg, was a baby community, although it had been through the hectic experience of the Cariboo gold rush. It would have been an exceptionally optimistic and far-seeing man who could have stood in any of these places in 1867 and predicted what they would become sixty years afterwards.

How to Play BRIDGE

A new series of lessons by
Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright 1926, by Wynne, Jr.

ARTICLE No. 27

In the preceding article there was a discussion as to the proper lead, after the bidding is concluded and two or more leading problems were given for consideration by our readers.

Answer to Problem No. 29

Hearts—A, K, 9
Clubs—J, 7, 4
Diamonds—K, J, 10, 8 : A : B :
Spades—8, 2

No score, first game. Z dealt and hid one heart. If all passed, Z yanked and bid two hearts. If all passed, what should Z open? This hand is a real puzzle for the proper lead is really a guess between the low spade and the king of diamonds. Personally, the writer would lead the king of spades but regards the king of diamonds as an equally sound opening. Either lead will save game, but the lead of the ace of clubs, followed by a low club, will lose the game. It just goes to show the importance of the proper opening lead.

Answer to Problem No. 31

Hearts—10, 8, 4
Clubs—K, Q, 10, 8, 3
Diamonds—A, 7
Spades—A, J, 1

Hearts—7, 2
Clubs—6, 5
Diamonds—9, 6, 4, 3
Spades—K, 9, 5, 3

No score, rubber game. Z dealt and hid one heart. All passed and A opened the eight of spades. Z played the seven from his hand. B played the king and Z the four. "What should B now play and why?" B should lead the four of diamonds in the end-covet to establish a diamond trick for his partner. He will never again be in the lead so should lead the only suit in which the lead up to dummy will possibly benefit his partner. A number of players would probably lead back the spade suit in this case, but the eight of spades is a singleton. There is no sound reason for thinking so, however. There is no singleton in the dummy hand or in A's hand, so why should B figure that A has a singleton? Singletons have a great deal to do with the game, but in this case, right, don't figure the other players for this. The suit of the diamond at trick two is the only lead that will save game. Here is an interesting and tricky problem. See what you can do with it.

Problem No. 22

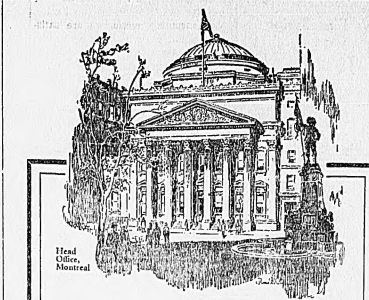

Hearts—K, 8, 2
Clubs—A, 7, 3, 2
Diamonds—J, 7
Spades—10

Hearts—Q, J, 10
Clubs—K, 9
Diamonds—9, 8, 6
Spades—J, 9, 6

Hearts—7, 6, 5, 3
Clubs—6, 5, 4, 2
Diamonds—4, 2
Spades—Q

Hearts—none
Clubs—Q, J, 10, 8
Diamonds—K, 5, 3
Spades—K, 4, 3, 2

If diamonds are trumps and Z is in the lead, how can Y-Z win all of the tricks against any defense? Solving is the most artful.

SECOND FORTNIGHTLY STATEMENT OF THE CROPS IN ALBERTA

Issued by Department of Agriculture, Government of Alberta, Edmonton, June 2, 1927

In spite of rains in some sections of the Province during the past two weeks, which have delayed work on the land for several days, rapid progress generally has been made with seeding. Wheat seeding in practically all districts has been completed and only seven grain in many fields is covering the ground. Drills are still busy with oats and barley. Taking the province as a whole, it is estimated that fully 75 per cent of these grains have been sown and the remainder will be completed within the next ten days.

The wheat acreage seeded in the south of the province is estimated to be about on a par with that of 1926, while throughout the central and northern sections reports indicate that this acreage will show quite a decided increase owing to the considerable area of new land cleared and broken last season in preparation for the 1927 crop. This factor, it is expected, will fully compensate for the areas in some low-lying fields where the presence of water made seeding impossible. The acreage which will be seeded to the coarse grains in most districts is reported to be about equal to that in 1926.

In the southern part of the province early sown wheat is from four to six inches high, of good healthy color and making rapid growth. Heavy rains during the past week in some sections of the south have delayed completion of coarse grain seeding to some extent. Winter wheat and winter rye generally have come through in good condition and are growing rapidly.

Reports from districts in the Peace River area indicate that the wheat acreage seeded this year is fully equal to that of 1926 and that the coarse grain acreage will show a marked increase. Coarse grain seeding will be completed within a few days in this section of the province.

More interest is being shown this year throughout the province in the growing of alfalfa, sweet clover and the other fodder crops. Pastures are reported to be in better than average condition and livestock generally is doing well, although some losses have occurred in the lamb crop as a result of the wet weather over much of the sheep range area of the south.

Reports reaching the Department from the ranching area in the south eastern section of the province indicate that losses of both cattle and horses owing to shortage of feed during the prolonged winter have been heavier than was anticipated. Bands of range horses appear to have been the worst sufferers, losses in some instances running as high as 35 to 40 per cent.

Precipitation during the month of May over much of the province has been about the average mark and now only warm growing weather is required to bring about a splendid crop, prospects for which are generally regarded as very promising.

TRY THIS—BROTHER

The editor of the local paper wrote in his journal: "Yesterday I bought four pounds of sugar and found about half a pound of sand in it. If the shopkeeper in question doesn't send me the half-pound of sugar at once, I shall publish his name in the paper." During the day nine grocers sent him nine different half-pounds of sugar. —Pollock's Newspaper News.

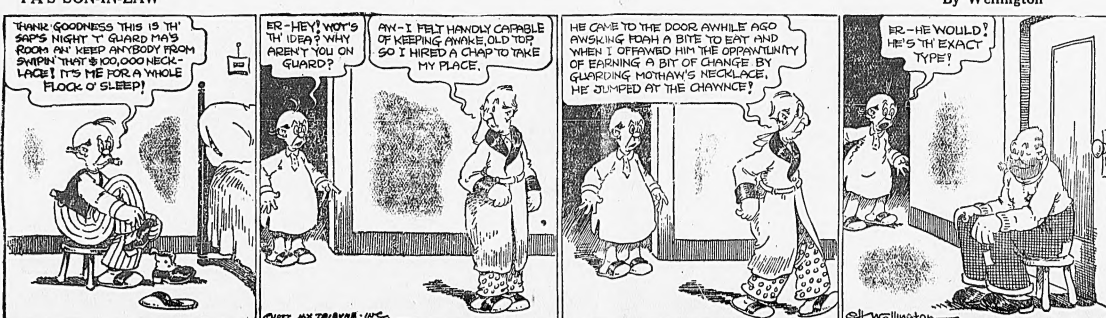

Was Troubled With INDIGESTION For Last Two Years

Mr. H. C. Harvey, Noron, Ont., writes: "I have been troubled with indigestion for the last two years. I have taken everything I have seen advertised, but have never had any of them do me so much good as

I have taken six bottles and haven't had an attack since. It is the finest medicine you can take for the blood." Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

AGRICULTURAL

(Continued from Page 1)

chasing power seven times as great as the total value of all manufactured products in Canada today," Mr. Peterson declared.

Quoting from a survey of the natural resources and commerce of Canada, Mr. Peterson declared that agriculture has been the economic heart of Canada and that Canada's prosperity goes up and down largely in sympathy with the financial returns of western Canada, so that the conclusion is reached that the controlling factors in Canada's industrial life is the success or failure of western agriculture the purchasing power of the farmer.

Mr. Peterson urged a better understanding between the manufacturer and the farmer, adding that, at present they have drifted apart completely on the tariff issue. No rational person can doubt that the manufacturers of Canada are earnestly desirous of bringing the greatest prosperity to the West. The farmer through his great co-operative organizations has entered the field of big business and he is the greatest land owner in the dominion and in these matters both great bodies have much in common.

FLOOD COMES AFTER STORM: 100 ARE LOST

Louisville, Ky., June 4.—A disaster of major proportions in the mountains of eastern Kentucky by storm Sunday and Monday was augmented by resultant floods, a relief committee was told yesterday at a conference here.

Upwards of a hundred lives were lost, an incomplete check revealed; several thousands were homeless and the property damage to homes, coal mines, business property and railroads was estimated at upward to \$5,000,000.

Coal operations in the big Sandy valley alone were said to face a loss of a half million dollars in business through inability to get cargo coal to Great Lakes ports because of washouts along the railroads and damage to equipment.

A car loaded with food and supplies for the flood sufferers left here yesterday and a train was being loaded last night with additional necessities.

ALBERTA COAL IN ONTARIO

If Alberta can supply us with a good and unfailing supply of fuel at

CENTRAL AUTO LAUNDRY
Work Promptly and Satisfactorily Done at Reasonable Prices
JOHNS & ANGUS
Stand Opposite Theatre
PHONES 222 AND 61

a fair price as a substitute for that we now get from across the border, the consuming public, we are satisfied, would be only too glad of the relief it would bring from the uncertainties in supply and cost created by the manipulation of the United States coal barons. But the people of Ontario would welcome the product of Alberta's mines on patriotic grounds as well as because it would mean removal of the yoke of alien corporations which in recent years have become so oppressive. That the efforts put forth in the past to place Alberta coal on the eastern market have not proved blithely satisfactory is no reason of despairing of complete success if the governments at Toronto and Edmonton take up the matter with determination and in sincere co-operation.—Toronto Globe.

CORRECTION

In our reference last week to the late J. R. Willows, we stated that the Wetaskiwin Old-Timers had contributed a wreath. This should have read the Old-Timers' Association of Northern Alberta, of which the deceased was a honorary member.

Here and There

It is estimated that 23,500,000 acres will be sown to crops this year in the West, an increase of 2,500,000 acres over 1925.

Canadians hold the record for eating eggs. The average Canadian last year consumed 337—a record according to Dr. J. H. Grisdale, Deputy Minister of Agriculture.

Tobacco-growing is flourishing in Western Ontario, and this year the average will likely run to 45,000 or double that devoted to the production of this plant in 1925. The crop last year was valued at \$4,000,000.

One of the most powerful radio stations in Canada will be erected at Red Deer, Alberta, in the near future. Stations will be operated in Calgary and Edmonton by remote control to the main station.

New Zealand will be officially represented at the World's Poultry Congress at Ottawa, July 27 to August 4. R. W. Hawke, one of the Island Dominion's best known poultry breeders, will represent that country.

Besides the game fish hatchery which will be established by the Dominion Government in the Waterton Lakes district in Southern Alberta, a commercial fish hatchery will be established in the north. The latter will also handle certain species of game fish suitable to lake waters.

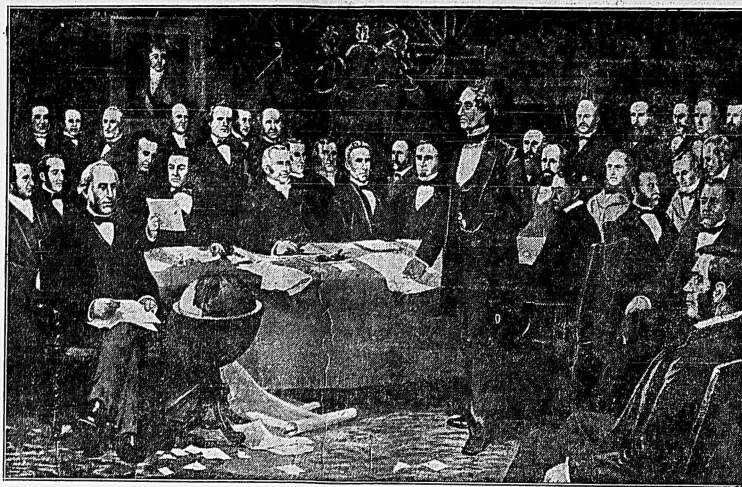

The Canadian Pacific steamship passenger traffic through the port of Saint John during the winter season of 1926-7 was over 40 per cent greater than that of the previous season, and it is expected that the same or better traffic through the St. Lawrence port will show a still greater increase.

The last addition to the chain of Canadian Pacific hotels is the "Hotel Saskatoon," located at Regina, opening on May 21. It is one of the finest in the chain of a character in keeping with the importance of the capital city of the Province which furnishes 50 per cent of the Dominion's wheat output. The hotel is a 12-story, containing 216 bedrooms with bath, and many beautiful public rooms and administrative offices.

The Canadian Pacific Railway Company reports from Winnipeg the marketing of grain at the present rate of 130,000 bushels daily as compared with 123,376 for the corresponding season of last year. Manitoba's 130,000 compares with Saskatchewan's 537,000 and Alberta's 266,827. Loadings are also above last year's record with 220 cars daily.

The greater portion of the bells forming the carillon to be installed in the Victory Tower, at Ottawa, were shipped from England on May 7 by the Canadian Pacific steamship "Hullaford." The carillon, consisting of 53 bells, is regarded as the finest in the world, and have been cast at the famous bell foundry at Croydon. The bells are a portion of a national memorial to thousands of Canadians who laid down their lives in the Great War.

The Province of New Brunswick is rising in importance as a fur-farming province. The report on the fur farms of Canada just issued by the Dominion Bureau of Statistics shows New Brunswick at the head of all the provinces in the matter of the yearly gain in the number of fur farms. These increased by exactly 100 in the year ending March, 1926, nearly doubling the number of the year before and standing in the later year at 294. Prince Edward Island still leads the Dominion in the number of fur farms, having 570 out of a Dominion total of 2,253, the latter figure comparing with 2,130 the year before. The provinces rank as follows: Prince Edward Island, 570; Ontario, 495; Quebec, 456; New Brunswick, 295; Nova Scotia, 192; Alberta and British Columbia, each 189; Manitoba, 53; Saskatchewan, 52, and the Yukon Territories, 20.

THE FATHERS OF CONFEDERATION
A rare print of the Confederation Conference held at Quebec, in October, 1864. It was presented to the Public Archives recently by the Right Hon. Sir Robert Borden.

CONFIRMATION SERVICE AT NEW SWEDEN

A special Service of Confirmation was held in the Swedish Mission Church, New Sweden, June 6th at 10:30 a.m.

The church was prettily decorated in pink and white crepe paper, also many potted plants and green leaves. There was a splendid gathering from around the neighboring country and the class did splendid work. Those taking part were: Fern Larson, Laverne Larson, Lillie Anderson, Alice Dahlberg, Ruth Dahlberg, Violet Anderson, Edith Axene, Norma Swanson, Herbert Anderson, Elph Anderson, Lealand Hamilton, Bernard Swanson, Helge Weaver, Harold Swanson, Emil Axene, John Knarson, Samuel Knarson, Ernest Peterson. After the service, Rev. Swanson was presented with a beautiful four piece silver coffee serving set. Every member of the class present received a leather bound Bible, also a certificate for faithful work.

ALBERTA LEADS ALL THREE PRAIRIE POOLS

Winnipeg, June 4.—Alberta holds the record for the quantity of wheat per elevator handled by the pool for the 1926 crop. The 42 local elevators owned and operated by the Alberta Wheat Pool handled so far this season, 5,241,130 bushels of wheat from the 1926 crop. This gives an average of 124,789 bushels per elevator. The pool elevator at Strathmore leads the list in total loadings, the figures for that house being 266,979.

THE NEW IDEA IN INDUSTRY

Many people do not realize that we are living in a new industrial era. You hear much talk about the freedom of the younger generation, expressed by bobbed hair, short skirts, the discard of chaperones, etc., but few realize that this is a huge wave of

rebellion at conditions of life that thwart human happiness and the right to live one's own life that is slowly undermining and completely altering many of our institutions. This is very noticeable in industrial plants. The terrible working conditions portrayed in some of Dickens' books have never been duplicated in Canada. Large employers, with vision, have, however, realized the wisdom of creating the best possible

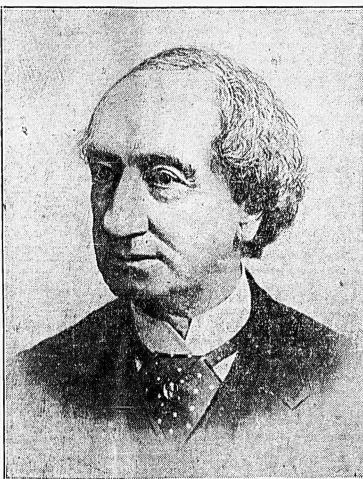

working conditions for their employees. Nowhere is this better exemplified than by the Saluda Tea Company. It was the ideal of the Hon. P. C. LeGelin, the founder of the Company, and now the Canadian High Commissioner in London, to create an atmosphere of order, cleanliness and beauty in his huge warehouses that would reflect on the workers, make them want to work well, and give them greater

satisfaction out of life. His ideal has been admirably accomplished, we were told by one of the officials of the company.

Now that Canada is celebrating her 60th Anniversary as a nation, and since she is rapidly becoming one of the great industrial powers of the world, it is interesting to note that she is also in the forefront in providing ideal working conditions in many of her great industrial enterprises. Thousands of people every year inspect the "Saluda" buildings. They are typical of what is now being done along these lines.

DRUNKEN MOTOR DRIVERS

On the eve of the introduction of government stores for the sale of intoxicating liquors and beer, with the inevitable result of increased sale of these liquors and consequent increase of intoxication, the recent action of a Montreal judge in sentencing a drunk driver to prison without the option of a fine, should be a salutary lesson to all drivers of motor cars who are given to drink. In the case referred to the chauffeur of a motor truck ran his car on to the sidewalk striking and injuring a young lady, and the officer making the arrest declared that the man was under the influence of liquor when his car got out of control. The fact that the man was not competent when the accident occurred did not serve to exonerate him from guilt, the judge taking the view that he was responsible for putting himself into a state of incapacity for handling a motor car. It is not sufficient security against the drunk driver to punish the man after he has committed some damage more or less serious; the time to take charge of a man in this helpless and irresponsible state is before he has had a chance to kill or injure some one else, and hence the announcement of more than one judge that imprisonment for drunkenness while driving will be no

SIR JOHN A. MACDONALD

unusual sentence. A drunken engineer, where the engine is confined to the rails, would not be tolerated for a moment; but some men will fill themselves up with that which deprives them of the power of reason and self-control and then attempt to run a car, much more difficult to guide, along the public highway or street thronged by traffic. It is surely better to deprive such men of their liberty than to expose hundreds of men and women to the danger of accident and death.—New Outlook.

TRANSIENT ADULT BROUGHT RESULTS

Another evidence that a small advt. in The Times brings results occurred a few days ago. Sam Lucas inserted an advt. that he had lost money on the streets of the city, and shortly afterwards Julius Dux advised him he had the money, and it was soon in the owner's possession.

HOT FOR THE DUCK

George Bannett, who lives a few miles east of town, has a good duck story. A duck was noticed escaping from his kitchen chimney and on investigation three eggs were found at the bottom of the chimney which is about ten feet high. The eggs were cooked and as there is a fire in the kitchen stove for about eighteen hours a day, the duck must have had a hard time getting down the chimney while it was not too hot for comfort.—Leduc Representative.

SPORTING NEWS

SHOULD GOVERNMENTS HAVE DEPARTMENTS OF RECREATION?

By H. H. ROXBOROUGH

(Continued from last week)

But, the Commission has like a two-edged sword—a power in either direction. It has not been satisfied to merely demonstrate that Ontario Government is interested in the play of its schoolboy athletes; it has not even been content to aid sports that are not self-sustaining; but it has—by supervision—rendered sports a real service by cleaning up professional boxing and wrestling by foreign promoters and boxes to present properly matched contests free from faking—in well conducted programs.

What If Federal Government Creates Dept. of Recreation?

So, if we believe that sports need Government stimulation and that the Province of Ontario has proved the feasibility of public administration by Commission, then the remaining problem is "What would be the effect on sports if Canada's Prime Minister created a Department charged with the organization and encouragement of efforts directed towards the improvement of the physical welfare of the youth of our country?"

The effect, of course, would be dependent upon the plan and the working alliance.

The most forceful opposition to any proposed plan might come from the well-meaning leaders, who believe in local autonomy in play life and who would resent interference in their particular sport from any outside source. These leaders might decline to co-operate and their services would be lost.

The withdrawal from office of any executive officer would be unfortunate, but under any satisfactory plan this condition could be avoided. In any well-arranged program voluntary directors would still retain considerable influence; community leaders would continue organizing clubs, conducting leagues, establishing playing centres and supervising recreation in their districts.

Those men whose real purpose was to serve the youth would still shoulder the same responsibilities; their tasks would be just as important, and the added impetus of a Government appointment might aid encouragement to the effort and honor to the office. Undoubtedly some present office

holders would find it convenient to retire, but is it not true that "executively" speaking Canada is over-manned? Is it not also true that most of the real work in sport in our Dominion is done by a very small percentage of those who hold positions?

Union Executive Handicapped With Considerable Deadwood

President J. A. McVicar, of Winnipeg, in his annual address to the Amateur Athletic Union of Canada, stressed this sentiment: "It has been brought home to me very forcibly that from out of the fifty or sixty representatives of Branches of our Association and of the National governing bodies affiliated with us, there are some forty or fifty who assume their duties lightly, and simply for the publicity and honor incident to the office, and without any thought of their responsibilities; and some twelve or fifteen throughout the whole Dominion who honestly put their whole heart and soul into the job that they are expected to do."

The result is that a mere handful of sportsmen in Canada who have amateur sport deeply at heart and who are willing to spend their time and money in fostering it and doing their duty toward it have been carrying the duties of the A.A.U. of C., and have been making a wonderful job of it, in spite of the severe handicap of carrying such a large percentage of deadwood.

The fact that our Association is in such flourishing and healthy condition in spite of this handicap, speaks volumes for the great underlying sentiment in favor of organized amateur sport in Canada. Any business, church organization, or any other organization I can think of with a large percentage of deadwood should have gone bankrupt years ago."

If governments, through better organization, could reduce the present executives who neither toll nor spin and by some Gideon-like method select and secure the co-operation and good-will of the real workers, a definite service would be rendered to sport.

Government direction would undoubtedly arrange for a better method of financing than now exists.

Ontario Government Has Solved Difficulties Re Revenue

The Ontario Government has solved the revenue difficulties in this

manner: The Ontario Athletic Commission was empowered to place a five per cent. tax on gross receipts from professional boxing bouts and in five years the reserve fund of this Commission totalled many thousands. This revenue, let us remember, was from boxing alone. Only recently, power was given to collect a two per cent. tax on gross receipts in all professional sports—baseball, hockey, soccer, boxing, wrestling, and an annual revenue of \$15,000.00 is expected.

Pro Sport, Skims the Cream and Should Pay for the Luxury

And this method of taxation is not unreasonable. Professional sport is not a game—it is a business; it does not develop players; it does not coach young lads nor does it support amateur clubs; it makes little contribution to play of young Canada—it really skims the cream—why should it not pay for the luxury.

The reserve fund would be distributed—not in one locality, or sport—but wherever the most good would result. There are some promising Canadian athletes, whose ability is not recorded because they have not sufficient means to attend national championships. The Canadian ski-jumping contests, for example, are usually held in Eastern Canada, but an enthusiast from Revelstoke, B.C., believes that his town has a group of twenty jumpers who could exceed the usual championship distance, and instances Nelson, of Revelstoke, who holds the world's record jump of 240 feet. But financial difficulties prevent the Western skiers from soaring in the Eastern air.

If governments established Departments of Sport it would ensure the services of full-time qualified directors who could devote all their efforts to this life work. Under prevailing conditions many officers accept executive positions with the very best intentions but eventually find it impossible to sacrifice the time required to properly direct their elected offices. The result is that some phase of sport suffers, and usually too much prominence is given to enacting legislation and punishing law violators rather than planning and developing the actual playing of games.

Doctrine of Free Choice Creative of Some Paradoxes

Government control would tend for stability and unity in sport organization. To-day the Amateur Athletic Union is a body that exists solely upon good-will; no association is compelled to enter into its sphere; admission is optional and withdrawal at any time is permissible. The doctrine of free choice is dominant. This condition creates some paradoxes. An athlete may accept financial rewards in a boxing tournament, a sailing race, or some other unaffiliated sport and still compete as an amateur in baseball or some other affiliated game. An

Millet Meets Seniors Here Friday, 6.15

Baseball fans will be flocking to Diamond Park on Friday evening when the ball-tossers from Millet will be down to tangle with the locals in an exhibition game. The game is called for 6.15, and promises to be a real event. Millet have a very fine line-up and are determined to go home with the scalps of the Wetaskiwin gang hanging to their belts. What say, fans. Let's all go.

STAMPEDE TO BE STAGED AT GWYNNE

A stampede is to be held at Gwynne on Tuesday, Wednesday and Thursday, July 5, 6 and 7, when \$2,000 will be offered in prizes. A full list of cowboys creates will be in the program. There will also be a baseball tournament, and a hockey dance each evening. Coal Lake Boys' Band has been engaged for the occasion. Keep this big event in mind.

amateur golf player may compete with a professional golfer and still retain his amateur standing, but an amateur hockey player who played with or against the "men of money" in a hockey game would automatically lose his slim-pure certificate and would be prohibited from playing with amateurs. Sport needs some power which magisterial force to draw all play life to a centre where uniformly laws can be secured and maintained.

Leaders in sport would appreciate the presence of a power that would command the fear and respect of law-breakers. It is generally admitted that some athletes whose amateur standing is questioned are encouraged to take false affidavits because they know that means of obtaining definite information are crude and there is not sufficient authority to prosecute. Under government control it would be much easier to separate amateur from professional play.

The seriousness of a falsely swearing would be given greater recognition. National Registration of Boy Life in Canada is Desirable

Government control would make it possible for Canada to form and conduct a National Registration of our boy life. Sports are arranged for certain ages and executives often have difficulty in ascertaining the correctness of an applicant's age.

Is the idea too visionary? Would Government control kill sport? Would play direction become a political football? It might. A great deal would depend upon the distribution of power, or which so far has not even been suggested, let alone defined. Yet many who would not support a complete Government supervision would readily agree that the present disorganization and lack of assistance in sports is deplorable and that more aid and encouragement would be exceedingly helpful.

In any event, whether we are supporters of government control in sport or total prohibition of political influence in our play, we might well ask of athletic executives, community leaders, sporting editors, spectators and premiers:

You talk of your breed of cattle And plan for a higher strain; You double the force in the pasture And heap up the measure of grain; You draw on the wits of the nation To better the barn and the pen—But what are you doing, my brother, To better the breed of men?

JUBILEE MEDALS FOR SCHOOL CHILDREN

Ottawa, June 4.—Lady Willingdon, at the royal mint today struck the first school children's medal for the jubilee. Machines are now turning out the medals at the rate of 500 a minute until the whole order of two million has been completed. It is intended to give one to every school child in Canada.

WHEAT POOL

Considerable progress has been made in the 1927 elevator program of the Alberta Wheat Pool. As a result of negotiations with elevator companies, forty-one elevators have been bought this year. In addition thirty-seven have been contacted for where there are no existing facilities and where it is apparent the present owners have decided definitely not to dispose of their properties to the Pool.

With regard to the balance of the program, negotiations are still in progress. It is the confident expectation of the directors that the full program will be carried out in sufficient time to have all the houses available for the reception of grain at the beginning of the next shipping season.

The financing of these purchases and the new construction is being conducted entirely out of funds on hand as the result of the accumulation of 2c a bushel from the proceeds of the sale of members' wheat in the last two crop years, plus accumulations of deductions for Commercial Reserve covering the past three crop years which may be used, for acquiring of elevators, if required.

FOR SALE THE WELL KNOWN RIDEAU FARM

South of Millet. On main Calgary-Edmonton Highway. A-1 buildings. 35 acres broken, three wells. Near high school. 755 acres. Will be sold at a very attractive price to close an estate. For full particulars write A. P. Mitchell, Millet, Alberta. 11-2t

THINGS TO REMEMBER

Boilers boiling milk, put two or three tablespoons of water in the pan. Let it boil for a few minutes. Add the milk and there will be no danger of scorching.

A pinch of salt added to the sugar preparations will prevent icing from forming to sugar or grainings.

Butter should never be put on the table in a covered dish, as they absorb their own moisture and become rancid.

To freshen a stale loaf, wrap it in a damp cloth for a minute. Remove the cloth, and put loaf in a hot oven for half an hour.

Try slipping dishes in hot water. Use a substitute instead of heating in the oven, when in a hurry. They will heat more quickly.

An asbestos mat will be found a useful addition to the kitchen equipment. Many things, such as stoves, kettles, pans and jugs can be cooked on it without risk of burning.

Hold onions in their skins. Cooked by a dip in cold water, they can be slipped out of their jackets quickly and without waste.

Do not pour cold water into an enamel vessel while it is still hot from cooking. This causes the enamel to crack and peel off.

When washing flannels never let them remain long in water. They should be washed and hung out to dry as quickly as possible.

Vinegar is handy when cooking it. Put in a desiccated powder and the candy will be perfectly smooth and will not turn to sugar.

To improve the looks of a shabby

umbrella, sponge it with a strong solution of sweetened tea. The tea will stiffen the fabric.

When the tag comes away from a good shoe lace, dip the end in a little melted wax, the same color as the lace and press it into a sharp point to take the lace holes.

Give the soles of children's shoes three coats of varnish, allowing each coat to dry thoroughly before putting on the next. This will double the life of the soles.

Eucalyptus oil will remove grease stains from any kind of material without injuring it. Apply the oil with a clean flannel and rub gently until the marks disappear.

If vinegar is boiled in a bottle that has become kelly turned, the deposit will soften and break away from the sides and bottom.

CHURCH ASKS FOR LARGER BUDGET

Stratford, Ont., June 4.—Enlivened occasionally by humorous exchanges on topics under discussion, the Presbyterian general assembly got through a great amount of routine work yesterday, report after report including that of the board of administration being put through with precision and a minimum of discussion. Members of the church during the ensuing year are asked to raise \$550,000. This sum being \$500,000 in excess of the preceding year.

The assembly approved a recommendation of the board that the total expenditure for home missions shall not exceed \$215,000 for 1927 and 1928 and for foreign missions not more than \$140,000 for the same period.

Considerable discussion arose regarding the keeping of historical records and it was finally decided to appeal to all churches and synods to preserve records and historical data forwarding lists to Montreal.

At the afternoon session the general assembly adopted the report of the federal property commission which arbitrated the distribution of central properties between the United church of Canada and the Presbyterian church. A committee of five members will be appointed to consider administration of the capital property awarded to the church. This committee will report to the next general assembly.

Pioneers Rear-Guard Lay Corner Stone of Old Timers' Pedestal

The rear-guard of the rapidly passing generation of northern Alberta pioneers, gathered in full force at the exhibition grounds on Friday afternoon, for the laying of the corner stone of the pedestal upon which will later be placed a bust of the Hon. Frank Oliver, founder of the Edmonton Bulletin, the longest established newspaper in Alberta. The ceremony was characteristic of the Old Timers—simple and sincere.

John A. McDougall, widely known old pioneer, delivered the address of the afternoon. Going back to 1876, the speaker told of how Frank Oliver, with several Red River cars loaded with merchandise, left Fort Garry in the spring, and after two months of walking at his leader's head, finally reached Fort Edmonton, a trip of some 900 miles across the bald-headed prairie.

Immediately upon his arrival in Edmonton, Frank Oliver built the log house which later became the home of the Bulletin and now stands next to the Old Timers' most of the exhibition grounds. At that time the nearest telegraph line to Edmonton was at Hay Lake, 40 miles away.

Craved News

Craving news and means of communication with the outside world, the Old Timers of Edmonton and the settlers in the surrounding district took up a subscription and a year later brought the wires into the city. Alex. Taylor, the first telegraph operator in the town, wrote out bulletins of the day's news and posted them in the window of the telegraph office. Frank Oliver saw the need of a daily paper, and in the spring of 1880 brought a small press from Fort Garry by the usual ox cart. Within another year this press was not big enough to handle the growing paper. The following spring Mr. Oliver made another trip to Fort Garry, and this time, in addition to a larger press, he brought a wife. After this he sold out his mercantile business, and settled down to building up a daily newspaper.—Journal.

PLAQUE AND \$150.00 PRIZE FOR EXHIBIT

A handsome, solid bronze, hand-carved plaque is being secured by the Provincial Department of Agriculture, which will be a model of the Parliament Buildings in Edmonton. This plaque is being donated by the Provincial Government to the Edmonton Exhibition Association to be used as first prize in the Districts Competition. In addition to the \$150 offered in cash by the Exhibition Association, and the very fine challenge shield offered by the John Christie Co., and will be on display at the Capital Buildings throughout the year, inscribed with the name of the winning district, and a replica in miniature will be given the winner.

The Districts Exhibits Competition is open to any electoral district north of Red Deer, and the prize winning districts at the 1925 Exhibition were Vermillion, Sedgewick, Wetaskiwin and Leduc, in the order named. The exhibits this year will include threshing and sheaf grains, table vegetables and roots, forage plants, fruits (fresh or preserved), and apical products, and may include photographs and maps descriptive of the district if desired, but no points will be allowed for same on the basis of judging being on the quality and variety of the products exhibited, and the general

arrangement of the exhibit. 300 points are allowed, and cash prizes totalling \$500 are being offered in addition to the Provincial Government and John Christie trophies.

CHANBROOK PAPERS HAVE AMALGAMATED

Another example of the tendency towards reduction in the number of newspapers in a town is the amalgamation of the Courier and the Herald, of Cranbrook, B.C. Today the last issue of the latter is published. In announcing the discontinuance of the Herald, its proprietor, Mr. Potter, said:—

"It costs a lot of money to publish a good newspaper to-day, and the amalgamation of the two Cranbrook papers will give to the city of Cranbrook a better paper than before, at a lesser cost to the merchants, to whom the publisher is bound to look for support. It is more than possible that Cranbrook's better interest has been sacrificed in the past by its papers 'scrapping with each other,' instead of using their time and energy to promote the bigger things that are more vital to its development and advancement."

WILL THEY BE BUNNIES OR CATKINS

We have heard and seen some funny things in nature. In fact the truth about animals often beggars credulity. But the strangest freak we believe we have heard of occurred in this district last week, when a cat who had lost her kittens in some way or other, lugged in a couple of young rabbits and proceeded to raise them as if they were her own. It is reported that the little bunnies seem to be quite satisfied with the mother who has kidnapped them. The cat is the property of Martin Hendrickson, well-known farmer of the district.—Hay Lakes Times.

HEART TROUBLED HER COULD NOT SLEEP HAD BAD DREAMS

It is impossible for those whose heart action is weak and whose nervous system is shattered, to get undisturbed and refreshing sleep. Their sleep is broken into by the regular beating of the heart, smothering and sinking sensations, starting in the sleep, terrible dreams, shortness of breath, nervousness and fear of impending death.

offer the blessing of sound, refreshing sleep by strengthening the heart and toning up the nerves.

Mrs. Louise Bagin, Golden Lake, Ont., writes:—"For several years I was greatly troubled with my heart. I was so nervous and short of breath, I could hardly sleep at night, and if I did sleep for a while I had bad dreams. I managed to keep at my work somehow until I began to have dizzy spells which got so bad I had to give up. I used many kinds of medicine, but found no help until I went to the druggist's and got a box of Milburn's Heart and Nerve Pills. After the first box I found a great change and after two boxes I was as well as I could be."

"I told my mother, who had choking sensations, about them and they helped her greatly."

Price, 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

You would not so ashamed of your stationery if it had been printed at The Times office.

60 COMMUNITIES PLEDGED

Edmonton, June 4.—About 60 communities, large and small, in various parts of the province have signified their intention of holding confederation jubilee celebrations that have not yet reported.

Literature has been sent out by the central committee in Edmonton to all mayors, reeves and school teachers in the province, and it is assumed that some of the rural villages are arranging celebrations that have not yet reported.

Ball Bearings Make the Gold Medal Turn Still Easier

You've always known the Gold Medal as an easy-turning cream separator.

Now, with a new ball-bearing upper-neck bearing, it's still easier to turn—it's the lightest-running cream separator on the market. Bearing is enclosed and protected from dirt and moisture, insuring long life and minimum friction.

Another new feature you'll like about the Gold Medal is a new-type oil indicator. You can see at a glance if your machine is being properly oiled.

And, remember—

Gold Medal Curved Disks Skim Cleaner

That's because they provide a wide space at center of the bowl to take care of thick, sluggish cream that has a tendency to clog in the ordinary straight-disk bowl. Two cream outlets—an exclusive Gold Medal feature—aid in handling thick cream and maintaining uniform test. Space between disks decreases to extreme narrowness toward outer edge, where the last particles of butter-fat are removed from the milk.

You'll get a lifetime of good service from this Gold Medal—it will save you money every time you use it.

"We have a new ball-bearing Gold Medal for your inspection. Come in."

I HAVE THE WOODS AND THE SEA

The town holds out its hands to me; But I have the woods, and I have the sea!
And the city's pitiful, pitiless lure Never can touch me any more!
For I belong to the wave-swept shore, And I belong to the trail that seeks The cloudy tops of the remotest peaks. The town has a voice of silver tones; But I hear the voice of the sea alone And I hear the voice, that is never still, At my ears, in my heart, the voice of the hill, Of the peak that leans against the sky! And that is the voice, until I die, I will hear and heed and answer free. Though the town of the wide earth call to me!
—Mary Carolyn Davies in The Epworth Herald.

EX-ARMY MAN SAYS IT IS TRUE

NOTHING LIKE "FRUIT-A-LIVES" FOR CONSTIPATION

MR. E. E. NEWMAN.

Even the most severe cases of constipation yield to "Fruit-a-lives". Witness this letter by Mr. E. E. Newman, Iona Station, Ontario:
"Ever since leaving the army I suffered terribly from constipation. After spending a great deal of money on other remedies, I took 'Fruit-a-lives'. I can sincerely say it gave me permanent relief. I often thought testimonials were untrue. I will gladly assure anyone writing me that 'Fruit-a-lives' are all they are claimed to be."
"Fruit-a-lives" goes right back to nature. Apples, oranges, prunes and figs are full of their fresh juices which are intensified and blended with tonics. Consequently, the action of "Fruit-a-lives" is naturally corrective and strengthening. It is a positive remedy for poorly functioning stomach, kidneys and bowels. This day buy a box of "Fruit-a-lives" yourself. Feel well, vigorous, again. 25c and 50c everywhere.

JUBILEE DAY CELEBRATIONS GOING AHEAD

Preparations are going forward for Jubilee Day Celebrations on June 30—Thursday, the last day of school. Please indicate your support of this Patriotic movement by saying "You bet, I will be there."

Further announcement next week.

LADIES' AID MEET

The Ladies' Aid of the United Church held their June meeting at the home of Mrs. V. A. McAllister in Wetaskiwin on Thursday last, the Millet members going by train and motor. After the routine business it was decided to present again the play "When Jane takes a hand," the date to be arranged later.

Mrs. Graham and Mrs. Argue conducted the Missionary Department on the conclusion of the Ladies' Aid meeting.

Those present were Mesdames Aikens, Argue, Facey, Dowler, Olesen, Moffett, Kent, Dinney, Graham, Higginson, Miss Pannett, Mrs. McAllister and Mrs. MacFarland.

The hostess was assisted in serving a very delicious tea by her little daughter Marjorie and Mrs. MacFarland. The party returned to Millet by motor.

ANOTHER TYPOGRAPHICAL ERROR

The angry citizen puffed into the office of the editor. "See here sir," he yelled, "what do you mean by publishing my resignation from my office in this way?"

"You gave the story yourself, did you not?" asked the editor.

"Of course I did," replied the angry citizen, "but your foot print prints it under the head of Public Improvements."

Wednesday, June 22, "Clean-up" Day at the Cemetery.

THINK IT OVER

"Give fools their gold, give knaves their power,
Let fortune's bubbles rise and fall;
Who sows a field or trains a flower
Or plants a tree, is more than all."

BACKACHES

Hamper Women

With Their Work

Mrs. A. G. Jones, Timmins, Ont., writes:—"After my first baby was born I was troubled with severe pains in my back and could not rest day or night. I could not do any work in which I had to stoop, couldn't even lift or hold my baby. I tried a number of remedies, but got no relief until my husband got me three boxes of

"Before the second box was used I was doing all my housework. I have never had a sore back since."

HILLSIDE

Mr. and Mrs. J. G. Bolt were Wetaskiwin visitors on Saturday.

Mr. William Webb spent Sunday in Edmonton.

The regular monthly meeting of the U.F.A. was held on Monday evening the 6th, instead of the usual Saturday evening. Final arrangements were made for the annual picnic to be held on Saturday, June 18th.

Mrs. Ross and Miss Mona Cottrell, Millet, were Hillsdale visitors Thursday, taking in the U.F.W.A. meeting at the home of Mrs. F. Loader.

Farmers are taking advantage of the nice weather and rushing in their crops. This week will see seedling completed.

Mrs. Bloom, of New York, has arrived in the district to spend the summer with her daughter, Mrs. T. H. Howes.

Mr. H. G. Young left on Monday for Victoria, B. C., to attend the Canadian Seed Growers' Convention.

Miss Beth Howes arrived home from Camrose Saturday and left on Tuesday for Edmonton to attend the Young Peoples' Conference.

The Hillsdale U.F.A. Annual Picnic will be held on the Hillsdale School Grounds on Saturday, June 18th. A Jubilee Pageant will be given by the school children and there will be a full line of sports for all. Also grand dance in the evening. See posters for further particulars.

NOTES FROM NEAR AND FAR

Stradivarius made about one thousand and six hundred, and of these about half are said to be still in existence; and one-third of them are to be found on this side of the Atlantic.

Sixty per cent. of United States industry is now electrified, and manufacturers show a growing disposition to purchase electric power rather than to generate it themselves in private plants. This statement was made by the National Electric Light Association, in a review of the industry, is need recently.

The racing seals used by the university crews of this continent have been made hitherto, at least some of them have, of Spanish cedar, which is brought from South America. Now they are going to use red cedar from British Columbia, which is said to be quite superior to the Spanish cedar for the purpose. We might have told them that.

The Great Appalachian Highway, which runs from Quebec City to Tampa, is now open and promises to attract an ever-increasing stream of motorists. There are twenty-five hundred miles of beautiful scenery. But when Canada gets her highway completed from Halifax to Vancouver we think it will be even a greater event.

Only six hundred vessels were launched last year throughout the world, and the gross tonnage was under 1,700,000. The preceding year the tonnage launched in the United Kingdom alone was over a million, while this year it was less than 600,000. Italy has passed Germany, and is the second largest ship builder in the world. Over eighteen million tons of shipping is now fitted for oil instead of coal, as compared with just over one million before the war.

There is a motor-car company in Newark, N.J., which refuses to employ red-headed drivers. The excuse is that the so-called gentlemen are inclined to be too reckless. This is, however, the only place of which we have ever heard where the red-headed man was discriminated against. Usually he has no difficulty whatever in getting a square deal, as of course he deserves. We wonder what the cab company would do if a man had no hair at all!

Corporation profits in the United States last year are estimated at \$12,000,000,000; while labor earns all the way from forty-five cents an hour in the North to thirty cents an hour in the South, with negro and Mexican labor getting as low as seventeen cents an hour. Of course this is for unskilled labor. Yet even so the fact that a man has to live on about \$1,000 a year, and keep his family, while corporation profits reach twelve billion dollars, will cause some very earnest thinking.

One of the great life insurance companies has been figuring on the value of the average child and man with some rather interesting results. A child at birth is estimated to be worth \$9,333, while a man at the age of thirty is worth \$31,000—if he is earning \$50 a week. It costs to rear a child from the date of birth to eighteen years \$7,290, whether that child be male or female. These are average figures based upon expenditures in a family of five with an income of \$50 a week.

On Sunday last a member of the local members of the L.O.O.F. motored to Leduc to attend the Anniversary Services of the brother Oddfellows of that place. Meeting in the L.O.O.F. Hall, they marched to St. Paul's Anglican Church, where the services were conducted by the Rev. A. B. Lane. On returning to the hall a light lunch was served to all Oddfellows and other friends, the choir and minister.

Miss Bessie Edwards was a visitor in town over the weekend.

A fine new twin gasoline tank has been installed by V. C. Rowley.

Mr. Hector Thompson is spending a few days in Edmonton.

Mrs. W. Ross and Miss Jean spent Friday and Saturday in the City.

Miss Eleanor Kerr and Mrs. Graham were Friday visitors to the City.

Miss Styles, of Leduc, spent the weekend with Miss Gwen Christie.

These are Ice Cream Soda days—read the ads and see who serves them.

White and Orr have placed a new gasoline tank in front of their Hardware Store.

Mrs. A. B. Argue, Mrs. Christie, Miss Styles and Miss Gwen Christie, motored to Edmonton on Saturday.

Mrs. Barbara Frederick, daughter of Mr. and Mrs. Grand Wolf, is visiting with her parents.

BORN—On Saturday, June 4th, in the Wetaskiwin Hospital, to Mr. and Mrs. Ordie Wolf, a son.

The Ladies' Aid of the United Church will hold their July meeting at the home of Mrs. F. Higginson.

Mr. John Smith, of the Imperial Bank staff, has gone to Wetaskiwin to relieve for a couple of weeks.

On Friday, June 24th, the original caste will present "When Jane Takes a Hand," in Pinyon's Hall. See further announcement.

Miss Jessie Smith of Calgary, was the guest of Mr. and Mrs. C. A. Kent over last weekend, en route to Vancouver for her vacation.

The replacing of the old posts with new ones has given quite a classy appearance to the front fence of Mr. John West's residential property.

Mrs. McDougall, Nelson, who is on her way to Luna, Saskatchewan, spent a few days with her daughter, Mrs. L. P. Wright.

The Misses Beth Howes, Freda Schaff, Phyllis Brown, Rose Kuhlman and Alta Cox, returned to their homes on the closing of the Camrose Normal School last week.

It was an encouraging sight on Sunday to see so many of the workmen engaged on the Millet section of the C.P.R., in attendance at St. Norbert's Church service.

Mr. and Mrs. J. H. Christie were in Edmonton on Thursday attending the funeral of Mr. Christie's uncle, Mr. Matthew Christie, of Cardston, interment being made in the Mount Pleasant Cemetery.

The baseball tournament at Gwynne on June 3rd was well attended. The weather was fine and many fans accompanied the ball teams. Millet won from Angus Ridge 8-6; Hobbena beat Gwynne 8-6; Hobbena was sunk in the finals, Millet winning 3-4.

Rev. A. B. and Mrs. Argue returned last week from Calgary where he had spent several days in attendance at the annual convention of the United Church. On Sunday evening at the regular service here, Mr. Argue gave a very interesting and instructive report of the proceedings of the Conference.

Visitors to Leduc: L.O.O.F. Service in the Anglican Church were Mr. and Mrs. West, Miss Eleanor Kerr, Messrs. Fred and Carl Thompson, Mr. J. R. K. Graham, Mr. and Mrs. A. P. Mitchell, Alice Mitchell, Mr. Herbert Schaff, Mrs. Plant, Mrs. Dowler and Mrs. Van Valkenburg.

Dr. T. B. and Mrs. Stevenson, little Miss Margaret and Master Lowell, with Miss Williams, Lady Superintendent of the Wetaskiwin Hospital, were guests at the home of Mr. and Mrs. S. C. Moen on Sunday afternoon, their fifteenth wedding anniversary. Mr. and Mrs. J. West joined them in the evening.

On Sunday last a member of the local members of the L.O.O.F. motored to Leduc to attend the Anniversary Services of the brother Oddfellows of that place. Meeting in the L.O.O.F. Hall, they marched to St. Paul's Anglican Church, where the services were conducted by the Rev. A. B. Lane. On returning to the hall a light lunch was served to all Oddfellows and other friends, the choir and minister.

NORTH PIGEON LAKE

The roads to the Lake have improved very much this week.

H. L. Graves made a flying trip to the Matthews district on Monday, returning the same evening.

Many cars of tourists spent Sunday afternoon at the Lakeside.

The attendance of pupils at Spring Hill school is reported as very satisfactory.

Mr. Albert Knight made a business trip to Edmonton on Monday.

Messrs. Donald McLean and H. Oumette, made a business trip to Wetaskiwin on Monday.

Owing to the rainy weather lately and the late spring, many farmers in the Matthews district are just getting on the fields for seeding.

Mr. and Mrs. B. Oumette and family motored to Lewisville on Sunday last, to the home of Mr. and Mrs. H. S. Jones.

Lester Eggleston returned on Saturday from the South country, and will remain at the home of Mr. and Mrs. B. Oumette.

A dance will be held in North Pigeon Lake Hall on Saturday, June 11. Scott's Orchestra will furnish the music.

Mr. and Mrs. Geo. Mulligan went to Edmonton last week to be present at the graduation exercises of the General Hospital, when their daughter, Ruth, was among those who graduated.

LET SOMETHING GOOD BE SAID

"When over the fair frame of friend or foe
The shadow of disgrace shall fall;
Instead
Of words of blame, or proof of thus and so,
Let something good be said.

"Forget not that no fellow-being yet
May fall so low but love may lift his head;
Even the cheek of shame with tears is wet
If something good be said.

"No generous heart may vainly turn aside
In ways of sympathy, no soul so dead
But may awaken strong and glorified,
If something good be said.

"And so I charge ye, by the thorny crown,
And by the cross on which the Saviour bled,
And by your own soul's hope of fair renown,
Let something good be said."

—Author Unknown.

TEAM WORK—IMAGINATION AND ENTHUSIASM

Take imagination and enthusiasm, and hitch the two together. Then fix your gaze on the farthest star.

And forget about the weather. Take a pound of pluck and energy. And mix with an ounce of thrift. Then forward-march to the heights ahead.

And don't be begging a lift. Pick out the hill you want to climb. And fix your gaze on the peak. Then blaze your way to the very top. The bottom is reserved for the weak. Imagination and enthusiasm!

Mark you, this matchless team, is yours to harness and drive to the goal.

Of all your heart has dreamed. Imagination and enthusiasm! Oh, man! if you are wise, You'll give 'em the rein, then fix your gaze On the brightest star in the skies.

—W. C. Thurston.

CALL HERE FOR MR. WEBSTER

A Maryville pastor, asked to submit notes of his sermon, preparing them hurriedly, wrote, "hypocency." The reporter who took them did not think that looked just right, so he changed it to "hypocrisy." The editor voted for "hypocency." The advertising department was called in and aligned itself with the reporter's "hypocency." Then James Colby, banker, happened along. A good church member, he stood with the pastor and spelled it "hypocency." Finally, a concerted rush was made for Webster's Unabridged, and the truth was revealed. It spelled it, how do you spell it, anyway?—Maryville (Mo.) Democrat-Forum and Tribune.

HEAVY SENTENCE FOR THEFT

Ira Munry was brought before Justice of the Peace Turner on Friday and charged with the theft of \$25 from Mrs. Madeline Desjardins. Accused was in the employ of Mrs. De

Sperdore, and was given the money to make purchases in town, but failed to return, and the police picked him up in the vicinity of Wainwright. He was charged with the theft of a mean and contemptible one, and sent the accused down for six months.—Ponoka Herald.

Neighborhood NEWS

HILLSIDE

At a meeting of the Hillside local U.F.A. this week, it was decided to support the nomination of Elvin Lee as the representative on the Wheat Pool Board from this district.

LONE RIDGE

The next meeting of the Lone Ridge local U.F.A. and U.F.W.A. will be held on Saturday evening, June 18th, at 8 o'clock. Important business will be transacted and a report of the delegate, Clifford Reimer, sent by the Lone Ridge local to the Young Farmers' conference held at the University, will be given.

The United Farmers' Sunday will be observed on June 19th, when service will be conducted in the hall at two p.m., by Rev. S. J. Waterman. There will be a musical program and community singing. Everybody cordially invited.

NEW NORWAY WEST

Carl Hoover was a business visitor in Lacombe and Wetaskiwin over the weekend.

Mr. and Mrs. M. Johns and family spent Sunday with Mr. and Mrs. Wm. Johns, of Cherry Grove.

Miss Hazel Meyer spent the weekend at the home of her sister, Mrs. Frank Thorn, in Wetaskiwin.

George Long, of Wetaskiwin, was a business visitor in the Hoover district on Monday.

Mr. and Mrs. Pete McKenna, of Lewisville, were visitors at the Ed. Wright home on Monday.

Mr. and Mrs. Wm. Meyer were business visitors in Wetaskiwin on Saturday.

Mr. and Mrs. John Trautman and family, also Mr. and Mrs. P. Trautman and family, were guests of Mr. and Mrs. Lyman Anderson of Camrose on Sunday.

Mr. and Mrs. Emil Hagstrom and family spent Sunday at the home of Mr. and Mrs. Enoch Stromberg.

Several of the younger people of this district attended the baseball game between New Norway and Edberg in New Norway on Friday evening.

Mr. and Mrs. "Car" Holt and family were guests of "Grandma Meyers" on Sunday.

Miss Harriet Gozow, who has been attending Normal in Calgary, is spending the summer vacation at the home of her parents in the Dowling district.

Mr. and Mrs. E. P. Smith entertained Mr. and Mrs. Frank Barloff and family, of Highland Park, on Sunday.

Miss Autumn Smith, who is teaching school at Dorelake, spent the weekend at her home in the Dowling district.

Mr. and Mrs. Oliver Holt and sons, were Sunday visitors at the home of Mr. and Mrs. Harry Newstead.

Robert McIntyre, who is attending High School in Camrose, spent the weekend with his parents.

Mr. and Mrs. E. Pierson were visitors at the home of Mr. and Mrs. O. Campbell, of New Norway, on Sunday.

Mr. and Mrs. Ralph McKenna and son, of Lewisville, were visitors at

the home of Mr. and Mrs. Homer Howey on Saturday and Sunday.

Mrs. O. Campbell, of New Norway, spent Thursday afternoon at the home of Mrs. E. Upshaw.

Mr. and Mrs. R. McKenna and Kenneth, Miss Mamie Howey and Miss Walker, motored to Red Willow on Sunday.

Miss Carrie Trautman spent a few days of the past week at the home of her sister, Mrs. Lyman Anderson, of Camrose.

What might have been a serious accident occurred on Saturday afternoon, when a team of horses, which Mrs. Herman Jans was driving home from New Norway, became frightened and ran away. Fortunately Mrs. Jans was not severely injured, but some damage was done to the buggy and harness.

Miss Dlythe and Master Francis Upham are recovering from an attack of chicken-pox.

SERIOUS FIRE

A destructive fire broke out on the farm of Mr. E. R. Olmstead, of the Dakota District, Friday morning, when his large barn, 32x56 feet, was destroyed, including fifteen head of horses, eight sets of harness and a quantity of feed.

There is no telling how the fire originated. About 3:30 a.m. one of the

boys observed the glare through the window and gave the alarm. By that time the roof had fallen in, and nothing could be done to save the property.

Insurance of \$1000.00 was carried on the barn which means that Mr. Olmstead has suffered a severe loss.—Ponoka Herald.
